### ***Contraindications for use***

**Due to the** small percentage amount of each herb, relative to the formula, it is unlikely any aggravation will develop from moderate use of Merlin's Herbal Roots Elixir, 2 Tbl per day or less.

**This formula** is adaptogenic and responsive to the needs of all body types, ages and genders.

**Do not use** Merlin's Herbal Roots Elixir with the following conditions:

**Pregnancy,**

**Cancers of the** generative system (hormone related), including breast, ovarian, uterine, prostate, testicular.

**Skin cancer.**

**Gout.**

**Reduce use** one week prior to surgery.

**Do not take** with other medications, because it may neutralize or inhibit their absorption.

**Reduce amounts** with overheating, or loose stools.

**Sip slowly** if taken with food.

**Thin or emaciated** individuals should use additional nutrients, such as seed or nut milks, with any Roots used.

**Expect slow,** gentle cleansing, rehealing of old wounds to a higher level of integrity. As we heal, we often go backwards in symptomology and re-experience old illness symptoms as they leave our system.

**Alkalizing herbs** tend to neutralize toxins as they arise, although the synergistic healing effect of all the herbs together may bring more toxins to the surface than are comfortably neutralized. Go slowly.

**The Naturopathic** Doctrine of Similars indicates aggravation of symptoms may be due to a specific herbal sensitivity to the formula. This may be good, although uncomfortable, reduce amounts as needed for comfort.

### Packaging:

**OMHMRE** is available in bulk in our **170 gram packages** which makes 110 One Cup Servings at full strength (1.5 grams per 8 oz of fluid) or almost 7 gallons. **Costing less than 20 cents each serving @** the **OMHMRE** Powder retail cost. To serve to plants and animals we brew the roots overnight with lecithin and enzymes using much less roots with the enzymes bringing full potency to the herbs. When we brew a batch for use, it needs to be used immediately after brewing, usually overnight is long enough. Longer lasting batches may be made by substituting fresh lemon juice for the digestive enzyme, using the juice of one whole lemon per gallon, instead of 2-4 enzymes per gallon.

For those who wish to use **OMHMRE** with their pets and plant and regularly for themselves to obtain optimal health, we suggest ordering a 12 pack of 170 gram packages which should be enough for one person and their pets and plants for a whole year, at 110 cups per month, you can have a qt of roots per day every day per person. By ordering bulk in individual packaging, this ensures opening a fresh bag every month. The jars may be recycled by refilling with a 170 gram bag.
